SUMMARY

Web developer with experience in both front-end and back-end development. Passionate about building efficient, user-friendly applications and eager to grow professionally. Open to new challenges, continuously learning, and acquiring new technologies and skills.

WORK EXPERIENCE

WEB DEVELOPER (FREELANCE)

2023 - Present

NETIHIND - Tallinn, Estonia

- Developed and maintain an online platform for comparing home internet packages, managing the full development lifecycle from concept to deployment.
- Leveraged Next.js for server-side rendering, dynamic routing, and SEO optimization, ensuring high performance and visibility in search engines.
- Implemented a responsive and accessible UI using Tailwind CSS, delivering a seamless experience across desktop and mobile devices.
- Built and optimized a PostgreSQL database for efficiency and scalability.
- Deployed and maintained the application in production, ensuring stability, optimal performance, and continuous improvements.

MANUAL QA ENGINEER

2023 - 2024

IT4PRO OÜ - Tallinn, Estonia

- Performed manual testing of web and mobile applications to identify bugs and ensure software quality.
- Developed and executed test cases using TestRail, documenting results and tracking issues for resolution.
- Collaborated with developers and product teams to reproduce defects and verify fixes.
- Reported and tracked software defects, contributing to continuous improvement of applications.

TEACHER, EDUCATION COORDINATOR

2019 - 2023

HELLOIT GROUP OÜ - Tallinn, Estonia

- Taught programming and digital skills to school-age children using Minecraft Education Edition, Java, Python, HTML/CSS/JS, and Unity.
- Designed and delivered engaging lessons, fostering critical thinking and problem-solving skills.
- Monitored student progress, providing feedback and adapting lessons to individual learning needs.
- Facilitated hands-on coding activities, enhancing student engagement and practical understanding.
- Developed and updated learning materials and programs, aligning with curriculum objectives.
- Analyzed student performance data to identify learning gaps and implement improvement strategies.
- Communicated with clients, resolved issues, and ensured high-quality service delivery.

WEB DEVELOPER

2019 - 2021

IT SOLUTIONS GROUP OÜ - Tallinn, Estonia

- Modified and enhanced WordPress websites and plugins using HTML, CSS, JavaScript, and PHP, improving functionality and user experience.
- Developed a custom ERP application with the Symfony framework for a mobile device repair company, streamlining internal processes.
- Integrated the ERP system with Erply and Nexmo, ensuring seamless data synchronization and automated communication workflows.

WORK EXPERIENCE

WEBSITE MODERATOR

2018

BALTIC SUPPORT OÜ - Tallinn, Estonia

- Monitored and moderated web portals to ensure content compliance with company policies and internal regulations.
- Reviewed and managed user-generated content, identifying and addressing inappropriate or non-compliant posts.
- Maintained a safe and positive online environment, supporting user engagement and platform integrity.

INTERN

2017

ERICSSON EESTI AS - Tallinn, Estonia

- Assisted IT technicians in diagnosing and resolving technical issues at the company's production facility.
- Supported daily IT operations, ensuring smooth functioning of hardware, software, and network systems.

ASSEMBLER

2014

ERICSSON EESTI AS - Tallinn, Estonia

- Assembled electronic components onto circuit boards, ensuring adherence to specifications.
- Inspected boards for defects, identifying and documenting faulty components.
